2014 to 2020 European Regional Development Fund Programme £20 Million Support for Small and Medium Sized Business Information and Allocations

The package of funding for small and medium sized businesses is supported by the England European Regional Development Fund (ERDF) as part of the European Structural and Investment Funds Growth Programme 2014 to 2020.

This additional £20 million of ERDF is part of the government's drive to boost the recovery of the economy and provide small and medium sized enterprises (SMEs) help to adapt their businesses following the coronavirus pandemic.

The funding has been allocated to local Growth Hubs (or associated projects) who work across the country with local and national, public and private sector partners, co-ordinating local business support and connecting businesses to the right help for their needs. They are locally driven, locally owned and at the heart of the government's plan to ensure business support is simpler, more joined up and easier to access.

The funding has been allocated to Growth Hubs in line with the current ERDF Programme LEP notional allocations for Priority Axis 3: SME Competitiveness. A minimum £250,000 has been allocated to each LEP area to ensure an effective grant programme is in place everywhere. The allocation of resources will be reviewed as the grant fund is delivered. In addition, the take up of allocations will be reviewed in three months' time to ensure it is meeting demand.

This ensures funding is available across all LEP areas. The funding can be used to support all SMEs in all sectors.

In places where ERDF does not currently fund a Growth Hub, we are working with the Growth Hub and an existing ERDF business support provider to make the funding available quickly.

Activities supported through the £20 million of funding must be to directly respond to the impact of COVID-19 and can include:

- one-to-many events providing guidance to respond to coronavirus
- small grants (£1,000 - £5,000) to:

- help visitor economy businesses access specialist professional advice e.g. human resources, accountants, legal, financial, IT / digital
- purchase minor equipment to adapt or adopt new technology in order to continue to deliver business activity or diversify

The funding is being provided to address immediate needs and all grants must be awarded by 28 February 2021 and all activity fully completed by 31 March 2021.

The allocations for each LEP area are set out below.
